AMERICA'S FASTEST TRAIN

at Fifty-One Miles an Hour.

Made in Twenty Hours-Western Pas-

senger Rates Still Muddled.

The "exposition flyer," the fast train of

the New York Central & Hudson River

railroad, especially constructed for the

first-class passenger traffic between New

York and Chicago, made a preliminary run

yesterday preparatory to the regular trips

which will begin to-morrow. The train

consisted of four cars and locomotive No.

870, the whole train weighing 482,000

pounds. The locomotive of itself weighs

102 tons, and is one of the most beautiful

specimens of railroad ingenuity extant. It

is the intention of the railroad company to

have this train cover the distance between

New York and Chicago in twenty hours,

cutting off four hours from the fastest time

yet made between the two cities. This

will require an average speed of fifty-one miles per hour, which will be faster than

any time made on any road in the country for a long distance. A novel feature of the

train is the system of the buffers used.

These buffers extend almost the entire

width of the cars and are driven together by hydraulic pressure. They hold the whole train perfectly rigid and prevent all

oscillation, rendering it possible for pas-

sengers to walk the whole length of the

train almost as easily as they would walk

Affairs in the Western Passenger Associa-

dent Reinhart replied that it would be folly

to arbitrate the matter, but for the sake of

harmony he would agree to let President Hughitt decide the matter. Mr. Hughitt

was out of the city, and his answer to the proposition could not be obtained. If he

agrees to act at once the reduced rates will

be held in abeyance for a short time. It is

not expected that Mr. Hughitt will agree to

arbitrate the matter unless both sides agree

KNIGHTS OF COLUMBUS.

New Order Inaugurated, with a Full List of Grand Officers.

A new benevolent order was inaugurated last night in the Sheridan Post Hall, in the Central Block. Its name is the Knights of Columbus of North America. The Indianapolis Lodge, No. 1, starts out with ten charter members, and it is said there are a number of applications for admission. The organizers were H. Howard Paramore, Urbine Stackhouse and U. Grant Ernest. They have been working the ritual quietly, but the fame of the order, it is said, in these days of honor to the great discoverer, has brought in several applications from outside cities for the ritual and the work. The order proposes to pay sick and death benefits. The officers were as follows: Grand voyager, Oran H. Ballard; past grand voyager, H. S. Paramore; grand admiral, H. E. Paramore; grand pilot, Frank S. Chance; grand eneign, Parry M. Barnard; grand lookout, F. M. Shy; grand keeper of the log, W. P. Bidwell; grand purser. J. H. Schneider; grand sentinel, Amos Davis, Fort Wayne. These officers constitute the Grand Lodge. There is to be a Supreme Council, which will be incorporated to-day.

Hagen neglected to signal the motorman and caught the car while it was traveling at a rapid rate of speed. Unfortunately, he chose the wrong side of the track, and was thrown against an iron post, striking the obstruction with his head. He suffered a wicked looking gash and some slight concussion, but was able to get to the McMillen drug store, at the corner of Washington and Alabama, where Dr. Gregg was called. Later the injured man was sent to St. Vincent's Hospital. Dr. Marsee attended him,
